

BUILDING HOPE FOR CHILDREN CONFERENCE

Resilient Families and Thriving Communities

SEPT. 5-6, 2019 / HYATT REGENCY / GREENVILLE, SC

Child abuse and neglect is prevented when families are strong and have the resources and supports they need. The professionals who work every day with those served by Children's Trust programs positively change outcomes for children and families before maltreatment occurs or reoccurs. They give families their best when they learn cutting-edge practices and are invigorated and inspired. Their contributions give us hope – hope for a better future for our children, our families, our communities, and our state.

To support, encourage, and educate these everyday heroes, Children's Trust will host its signature, statewide prevention conference in 2019. Held every other year, Children's Trust welcomed in 2017 more than 750 social workers, counselors, nurses, home visitors, non-profit professionals, first responders, administrators, teachers, and many more from 40 of South Carolina's 46 counties.

Conference attendees will enjoy dozens of dynamic breakout sessions, powerful keynote addresses, and networking opportunities with peers from across the state.

Your support of Children's Trust's biennial Building Hope for Children Conference will help ensure our child- and family-serving professionals are as well-equipped as possible and remain motivated and committed to their important work.
